

To the Commission: Please note that our 48-hour report filed and accepted today as filing id FEC-321203 was not filed on or before Feb. 2, 2008, due to problems with our electronic filing password. Several attempts were made on Feb. 1 to file the above-mentioned report, but the password would not work. A call to the electronic filing office was not returned on Friday, so we were not able to resolve the problem with the password until today, Feb. 4. The electronic filing office was able to assist today and fix the problem of the online filing system not accepting our previously-used login and password. We made several attempts over the weekend to file the report, but to no avail.

Please note that we have therefore filed this 48-hour notice as soon as we were able.

Thank you - Page Gardner, Treasurer
